Christina Coulter  
Planner  
Township of Douro-Dummer  
894 South Street, P.O. Box 92, Warsaw  
Ontario, K0L 3A0

Dear Christina Coulter,

**Re: File: R-07-23, Owner: Steve Kidd, 1635 County Road 6, Township of Douro Dummer, Roll# 1522-020-004-08700, ORCA File No: PPLD-2285.**

The Otonabee Region Conservation Authority (Otonabee Conservation) has received the above noted circulation and the following documents in support of the application.

- Notice of Complete Application and Public Meeting for Zoning By-law Amendment Application R-07-23, Prepared by the Township of Douro Dummer, Meeting Date Tuesday October 17, 2023.
- Township of Douro-Dummer Application for Amendment to Zoning By-law #10-1996, Dated September 18, 2023.
- Survey, Prepared by JBF Surveyors, Dated June 16, 2023.
- Draft Zoning By-Law amendment- File: R-07-23.
- Figure 4 Site Natural Heritage Constraints, Prepared by Cambium, Dated August 2021.

Otonabee Conservation staff have reviewed the information in accordance with our mandate and policies and offer the following comments.

This application is proposing to rezone a portion of the subject lands from the Rural Zone (RU) to the Environmental Conservation Zone (EC) to recognize existing wetlands and their 30 m Vegetation Protection Zone (VPZ).

This rezoning is required as a condition of Consent Application (File B-60-22), that was conditionally approved by Peterborough County on October 13, 2022.

Otonabee Conservation's interest in this application is three-fold:

1. *Otonabee Conservation has reviewed this application through our mandated authority under Ontario Regulation 686/21, pursuant to the Conservation Authorities Act, to ensure consistency to natural hazards policies in any policy statement or provincial plan issued under the Planning Act.*

Otonabee Conservation mapping and previous planning review for B-60-22 indicates that the proposed rezoning is appropriate to rezone the land to the Environmental Conservation Zone (EC) to recognize existing wetlands. **Therefore, it is the opinion of Otonabee Conservation Authority staff that the application remains consistent with section 3.1 of the PPS.**

2. *Otonabee Conservation has reviewed the application through a regulatory lens. Pursuant to regulation under Section 28 of the Conservation Authorities Act, any development, interference with or alteration within a flooding hazard, erosion hazard, watercourse, wetland and their adjacent lands/areas of interference requires a permit from the Authority.*

Otonabee Conservation mapping indicates the subject property is partially subject to Ontario Regulation 167/06 Otonabee Conservation's "development, interference with wetlands and alterations to shorelines and watercourses" regulation. **Permits from this agency will be required prior to any site alteration or construction in those areas regulated by Otonabee Conservation.**

3. *Otonabee Conservation has reviewed the application for conformance with the provisions of the Revised Trent Source Water Protection Plan (SPP), prepared under the Clean Water Act. The SPP, intended to protect Ontario's drinking water at its source, came into effect on January 1, 2014 and contains policies to protect sources of municipal drinking water supplies from existing and future land use activities.*

**The subject lands are not located in a vulnerable area as per the SPP.**

Please contact me if you have any questions or concerns.

Best Regards,

Marnie Guindon  
Planning and Regulations Officer
