Dear Christina Coulter,

**Re: File: R-04-24, Owner: Jesse & Deborah Murphy, 1076 County Road 40 (Dummer Ward), Township of Douro-Dummer, Roll# 1522-020-002-07701, ORCA File No: PPLD-2299.**

The Otonabee Region Conservation Authority (Otonabee Conservation) has received the circulation for a re-zoning for the above noted property on February 27<sup>th</sup> 2023. Otonabee Conservation staff have reviewed the information in accordance with our mandate and policies and offer the following comments.

The subject property is currently zoned Residential (R). The effect of the Amendment is to place a Holding Provision "H" on the severed parcel.

This rezoning is required as a condition of Consent Application (File B-65-23), that was conditionally approved by Peterborough County on November 30 2023.

Otonabee Conservation's interest in this application is three-fold:

- 1. Otonabee Conservation has reviewed this application through our mandated authority under Ontario Regulation 686/21, pursuant to the Conservation Authorities Act, to ensure consistency to natural hazards policies in any policy statement or provincial plan issued under the Planning Act.*

Otonabee Conservation mapping indicates that the proposed development is not located within a known hazard. **Therefore, it is the opinion of Otonabee Conservation staff that the application remains consistent with Section 3.1 of the PPS.**

2. *Otonabee Conservation has reviewed the application through a regulatory lens. Pursuant to regulation under Section 28 of the Conservation Authorities Act, any development, interference with or alteration within a flooding hazard, erosion hazard, watercourse, wetland and their adjacent lands/areas of interference requires a permit from the Authority.*

Otonabee Conservation mapping indicates that the lands are not subject to Ontario Regulation 167/06 Otonabee Conservation's "development, interference with wetlands and alterations to shorelines and watercourses" regulation. **Permits from Otonabee Region Conservation Authority are not required.**

3. *Otonabee Conservation has reviewed the application to assess the applicability of the [Trent Source Protection Plan](#) (SPP) prepared under the Clean Water Act (CWA). The SPP came into effect on January 1, 2015, and contains policies to protect sources of municipal drinking water from existing and future land use activities that pose a significant [drinking water threat](#).*

**It was determined that the subject property is not located within a [vulnerable area](#) that is subject to SPP policies. The subject property is located within the vulnerable area(s) listed below. Significant drinking water threats are not possible and a Restricted Land Use Notice is not required.**

- Highly Vulnerable Aquifer

Please contact me if you have any questions or concerns.

Best Regards,

Marnie Guindon  
Planning and Regulations Officer
