**Subject: Proposed updates to certain operational policies under the *Aggregate Resource Act***

---

Hello,

Ontario's aggregate industry plays a key role in our government's vision to build Ontario, supporting vital development and jobs across the province. At this time, MNR is proposing updates to certain operational policies under the *Aggregate Resources Act*.

Over the last six years, changes to the Act, regulation, and the development of the Aggregate Resources of Ontario Standards, have left several aggregate resources policies outdated and/or inaccurate. New requirements and provisions introduced through these changes also need to be supported with new policy direction.

In a continued effort to clarify requirements and improve efficiencies, three policies are proposed to be updated (replacing seven outdated policies) related to new aggregate licence/permit applications addressing Water Report, Cultural Heritage Report, and Matters to be Considered in the Issuance of a Licence. One new policy based on the 2020 requirements in the Standards, Maximum Predicted Water Table Report is being proposed. In addition, the government is focused on reducing burden to businesses; this is why we are proposing to rescind 28 policies that are outdated or unnecessary.

Updated policies are an important step in modernizing the Ministry's aggregate program, ensuring transparency and consistency in program delivery, and providing certainty to industry and the public about the Ministry's expectations.

A complete summary of the proposed policy changes can be found on the [Environmental Registry](#) (search for notice: 025-0216) for a 48-day commenting period ending September 25, 2025.

We invite you to review the changes and offer comments.

There are several ways you can comment on this proposal, including:

1. Directly through the Environmental Registry posting (click on the "Submit a comment" button)

2. By email to [aggregates@ontario.ca](mailto:aggregates@ontario.ca), or
3. By mail to:

Resources Development Section
