Name	City	State	Postal Code	Country	Date	Comment
Leslie Primeau	Toronto		M9B 3C6	Canada	2021-09-24	"I too am very concerned about the safety of pedestrians, cyclists, and even the drivers on Birchview Road who all too often find themselves face to face with someone who is in too much of a hurry on a road that is not meant to be travelled on at great speed."
Peter Sullivan	Peterborough		K9H	Canada	2021-09-24	"Pedestrian safety is important. Nothing like a nice walk in the country but you are taking your life in your hands when doing so on Birchview."
Jacob Rodenburg	Peterborough		K9H	Canada	2021-10-05	"I'm worried about road safety and the speed of cars along this road. This particularly concerns me, operating a year round camp/outdoor centre with children frequently crossing the road to access our nature trails"
Joanne Sumner	Lakefield		K0L2H0	Canada	2021-10-05	"I am concerned about the over use of the road by commercial vehicles, their high speeds and vegetation encroaching along the sides of the road. Construction has lead to vehicles being parked on the road, sometimes on both sides, creating dangerous situations for all drivers, cyclists, pedestrians & the workers themselves. All such vehicles should be parked on the properties that they are servicing. Since the road has been designated as a bicycle route, the number of motorcycles has increased drastically. Many travel at excessive speed, as do many of the trucks hauling boat trailers. By the numbers of beverage containers in the ditches, I suspect that many drivers are DUI. A police presents is required along Birchview at strategic times of the day, week & season. We all need to report the aggressive drivers, speeders & near misses to a specific system, so that details & trends can be analysed."
Joanne Sumner	Lakefield		K0L2H0	Canada	2021-10-05	"Speeds are to high. Enforcement is required. Discussion does not lower the danger."
Sheri Penner	St Catharines		L2S 4B7	Canada	2021-10-09	"I own on birchview and have young children. We enjoy running and cycling and often feel unsafe on Birchview."
Eve Hoffman	Toronto		m5r2z3	Canada	2021-10-09	"I have been walking and cycling this road with my 13 month old since he was born. It would be nice to have a safer environment to do this. Gets tricky in the winter when the road is even narrower and trucks still barrel down."
