

CORAL DRIVE STANDING WATER

THE DITCH IS
ALMOST FULL
BEGINNING OF
NOVEMBER
2021.

A close-up photograph of a body of standing water, likely a pond or a large container, filled with thousands of mosquitoes. The water is dark and murky, with many small, dark, winged insects floating on the surface. Some mosquitoes are seen in motion, creating small ripples in the water. The background is slightly out of focus, showing more of the water and some dark, possibly submerged, vegetation or debris. The overall scene depicts a significant mosquito infestation in a breeding ground.

THIS STANDING WATER IS A
MOSQUITO BREEDING GROUND.
NEIGHBOURS CAN'T ENJOY THEIR
OWN PROPERTY.

MY FATHER HAS REMOVED
MULTIPLE TREES. MORE
TREES ARE TO BE REMOVED
THIS SPRING. EVEN THE
BELOVED FAMILY APPLE TREE
DIED DUE TO EXCESSIVE
WATER.

WELL ON CORAL DRIVE. JUST A TRAILER LENGTH AWAY
FROM WHERE THE WATER RISING TO AT HIGH TIMES.

2004 FLOOD VS. 2021 FALL

2004 FLOOD AS THE WATER ROSE. GOLDEN RETRIEVER SWIMMING IN THE WATER.

2004 VS 2021

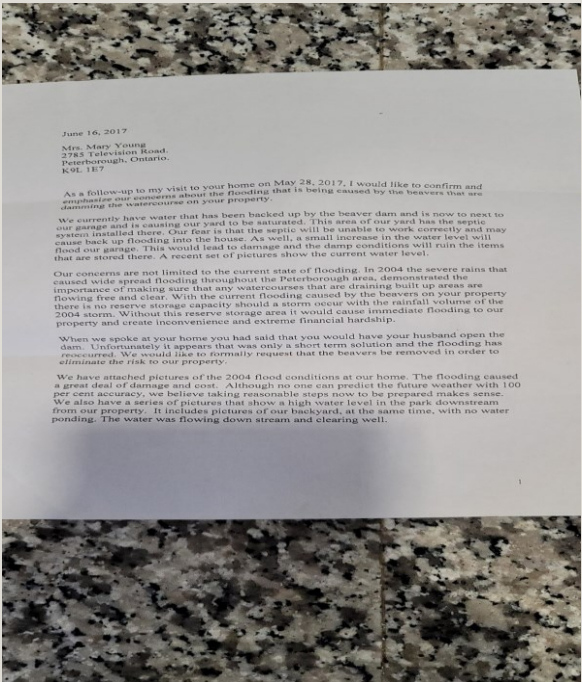

BACKYARD AT MY PARENTS ADDRESS. WATER
STANDING BESIDE SHED.

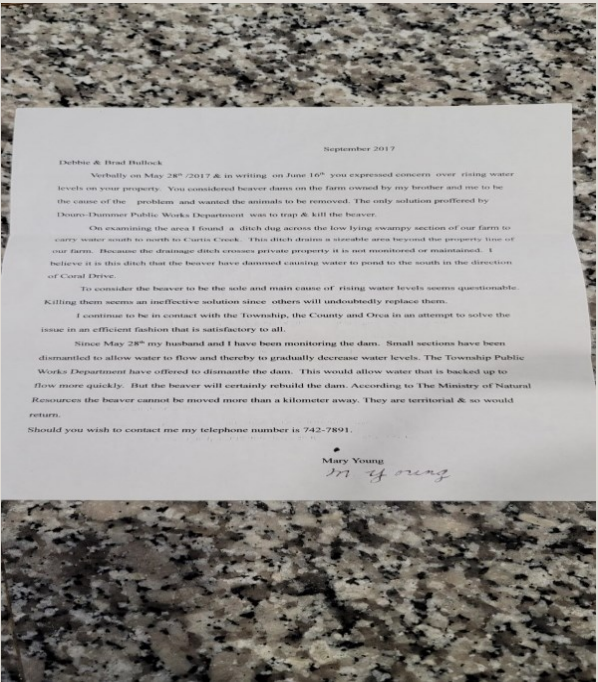

CLINT YOUNG SOLD THIS LAND TO CREATE THIS SUBDIVISION. HE WOULD WORK WITH THE NEIGHBOURS TO RESOLVE THE WATER ISSUES. SINCE CLINT'S PASSING THESE ISSUES HAVE BEEN LEFT UNRESOLVED.

MY PARENTS LETTER TO THE YOUNG'S

MARY'S LETTER TO MY PARENTS

GLOBE WARMING

LARGE RAIN EVENTS WILL BECOME MORE COMMON WITH GLOBE WARMING.
