

Recommendation:

That the Fire Chief-2022-05 report, dated April 19, 2022 regarding Bunker Gear be received; and

That Council approve the additional funds in the amount of \$8500 from Working Funds Reserve to purchase three additional sets of bunker gear.

Overview:

During 2022 budget planning, we anticipated 3 sets of bunker gear that we would need to purchase, due to recruitment. Recruitment was slightly higher than anticipated this year and the gear we have in stock could not be re-purposed, due to sizing modification restrictions. Therefore, we are in need for an additional three sets of gear that are not budgeted for.

Conclusion:

Our recruits graduate at the end of June and to utilize their skills to the fullest, we would normally upgrade their training gear to fully compliant gear to help deliver the level of service Council has set. The order for 2022 bunker gear would need to be increased from 3 sets to 6 sets.

Financial Impact:

At the time of quotation, we would need an additional \$8500 to complete this order. These funds would be available through the Capital Project/Purchases Reserve.

Strategic Plan Applicability: Choose an item.
