

My own grand children have been enjoying it very much, as well as the opportunity to connect with other neighbourhood children. The basketball court is great for the older children.

I also appreciate the thought and care that has gone into the landscaping. The mainly native plants that will support wildlife as they mature and the placement for both shade and beautification. As plants grow and mature, I think it will be quite striking.

Much appreciated!!!

Township Council, (please share,

As a long-time resident on Gifford Drive, I would like to express my appreciation for the wonderful job done on Clintonia Park.

Such an age-range and variety of playground equipment. So colourful and high quality. This neighbourhood has been evolving as young families have been buying homes from elderly residents leaving. The park has been a real catalyst to bringing neighbour children together!
